

Learning management.

SIMPLIFIED

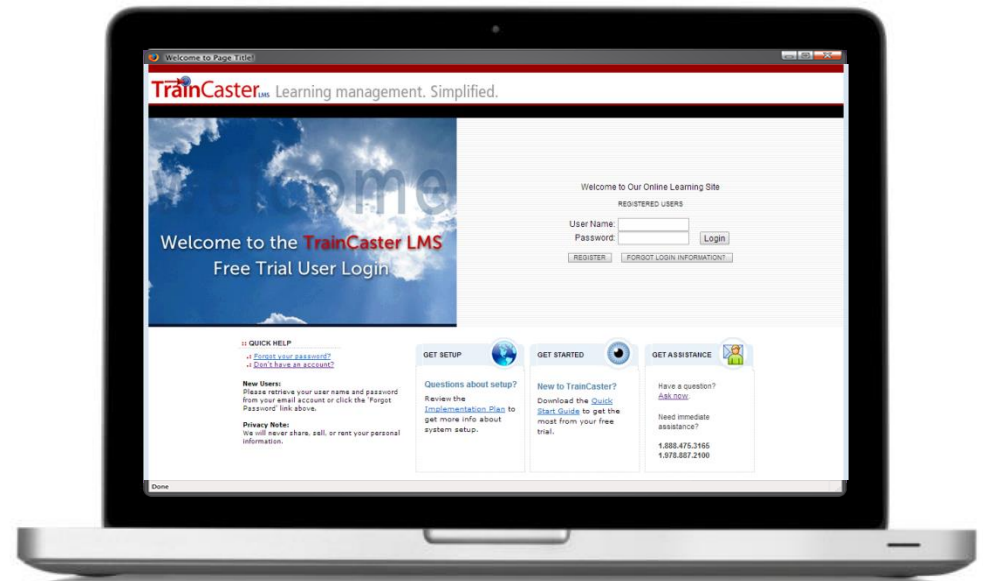

TrainCaster LMS – the all-in-one-easy-to-use learning management system.

TrainCaster LMS makes eLearning easy.

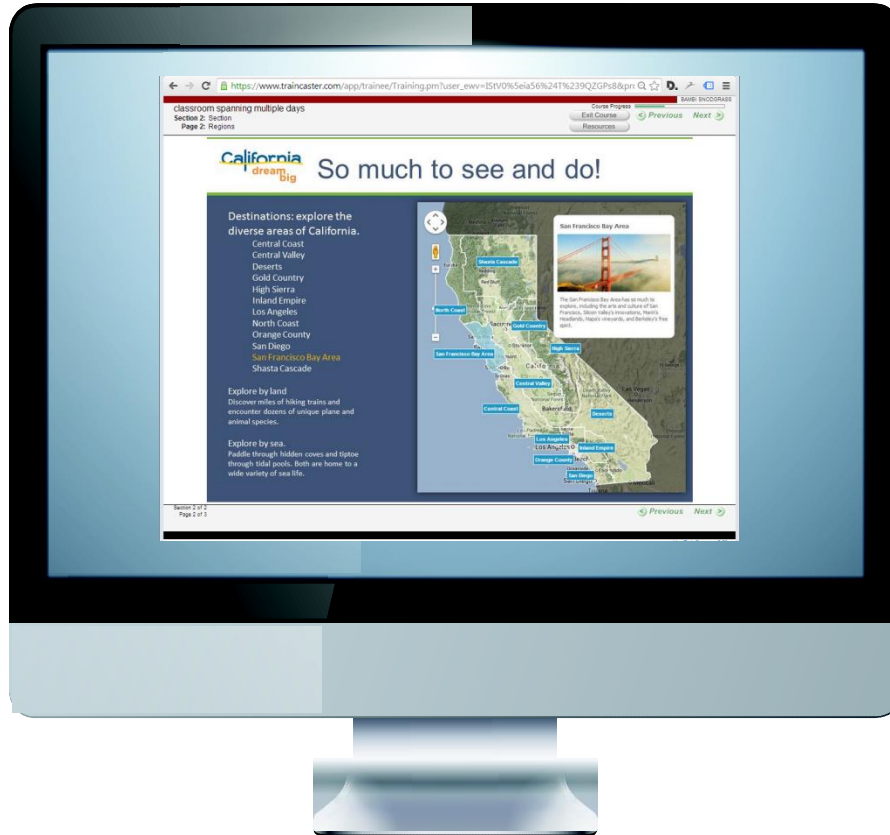

Easy-to-use, easy-to-implement & easy-on-the-budget.

From course authoring, real-time reporting, & detailed tracking, to an easy user interface, course catalog and full SCORM support, our hosted LMS solution comes with everything you need to manage training.

Easy setup and management.

Because TrainCaster LMS is a hosted solution you get up and running quickly. We take care of the details, including importing historical training records, setting up custom data fields and groups and/or departments. All at no additional cost.

Get started with online training in days, not weeks. Built-in tools and technologies help you get your courses online effortlessly.

User experience.

TrainCaster LMS has an intuitive, easy-to-use interface that gets you going immediately. No learning curve to slow you down. Training requirements are displayed with due dates, and training status under My Courses. Trainees can start and resume training based on their schedule. Trainees can browse the course catalog to enroll in courses, check the classroom calendar for offerings, and access their full course history in a single click.

The screenshot displays the TrainCaster LMS interface. At the top, the logo reads "TrainCaster LMS Learning management. Simplified." with the user name "JOHN DOE" in the top right. A navigation bar includes "Administration", "Course Manager", "User Manager", "Reports", "My TrainCaster", "Help", and "Logout". Below this, a secondary bar has "Edit Profile" and "My Files".

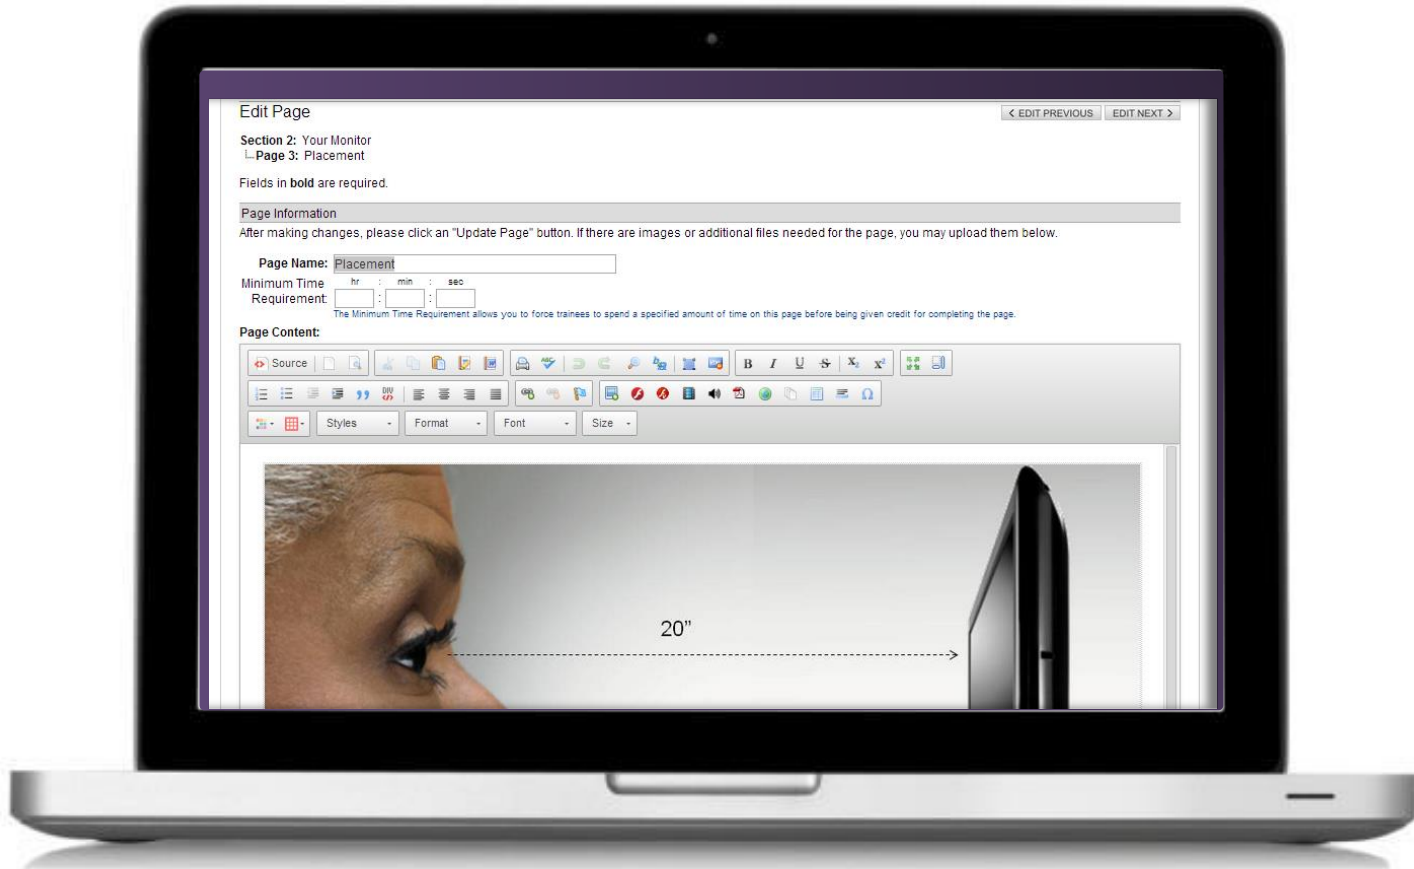

The main content area features tabs for "My Courses", "Course Catalog", "Classroom Calendar", and "Course History". Under "My Courses", there are two sections:

- Courses In Progress:** Includes a table with columns for Course, Objective, and Status. Two courses are listed: "Ergonomics" and "Ready, Set, Go - TrainCaster Quick Start Guide". Both have a "RESUME TRAINING" button and a status of "(Started: Feb 10, 2014)".
- Courses Assigned:** Includes a table with columns for Course, Last Trained, and Training Due. A section titled "REQUIRED COURSES" lists "Sample Courses" with links to "Ergonomics", "Ready, Set, Go - TrainCaster Quick Start Guide", and "Volcano Intro". Each link has a "w" icon. The "Last Trained" date for all is "Jul 30, 2012". The "Training Due" dates are "Jul 30, 2013 *", "Jan 22, 2014 *", and "Jul 30, 2013 *". A note at the bottom states "* Overdue Training Date".

At the bottom of the page, there is a "Click Here for Assistance" link on the left and "powered by TrainCaster v.5.20a" on the right.

Built-in functionality.

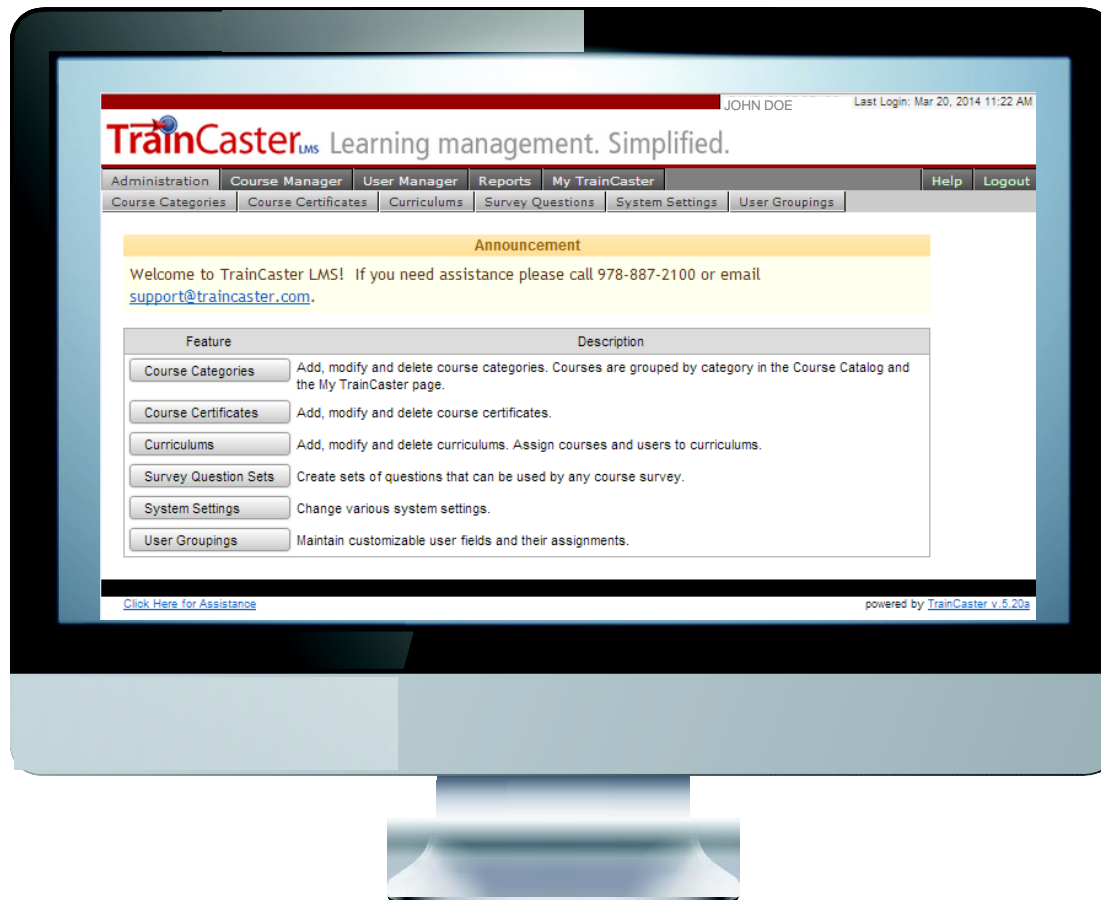

- Includes course authoring & conversion tools, as well as quiz and survey creation tools.
- Supports SCORM/AICC content created with third-party authoring tools.
- PowerPoint-to-web course conversion engine.
- Online courses can include video, audio, quizzes, documents, assignments, surveys & more.
- Embed web content into courses (e.g. YouTube videos)
- Robust quiz authoring with auto-correction & feedback.
- Easy upload of course glossary & FAQ.
- Store auxiliary course materials, like standard operating procedures & how to's, in your course repository..
- Online discussion forums.

Simplified administration.

TrainCaster LMS automatically tracks training requirements and due dates, sends reminders and overdue notices so you don't have to.

- Setup default email messages.
- Create custom course certificates.
- Setup system contacts.
- Manage group settings.
- Create groups and departments that reflect your organizations hierarchy.
- Specify system-wide default settings for your environment.

Instructor led training.

Sometimes an online training session is not the best option, but you want to track requirements, compliance, and training data. With TrainCaster you can create, track and manage classroom training. Trainees register for classroom courses from their training home page or you assign trainees to a specific session. This gives everyone maximum flexibility to accommodate tight schedules.

The screenshot displays the TrainCaster LMS interface. At the top right, the user name "JOHN DOE" is visible. The main header features the TrainCaster logo and the tagline "Learning management. Simplified." Below this is a navigation bar with tabs for "Administration", "Course Manager", "User Manager", "Reports", and "My TrainCaster", along with "Help" and "Logout" buttons. A secondary navigation bar includes "Edit Profile" and "My Files".

The main content area is titled "My Courses" and includes sub-tabs for "Course Catalog", "Classroom Calendar", and "Course History". A "Classroom Region" dropdown menu is set to "Any". A calendar for "March 2014" is shown on the left, with dates 25, 26, 27, and 28 highlighted. To the right of the calendar, a list of training sessions is displayed, each with a date, time, class name, location, and "SEATS AVAILABLE" status. An "Arrange by Date" dropdown menu is also present.

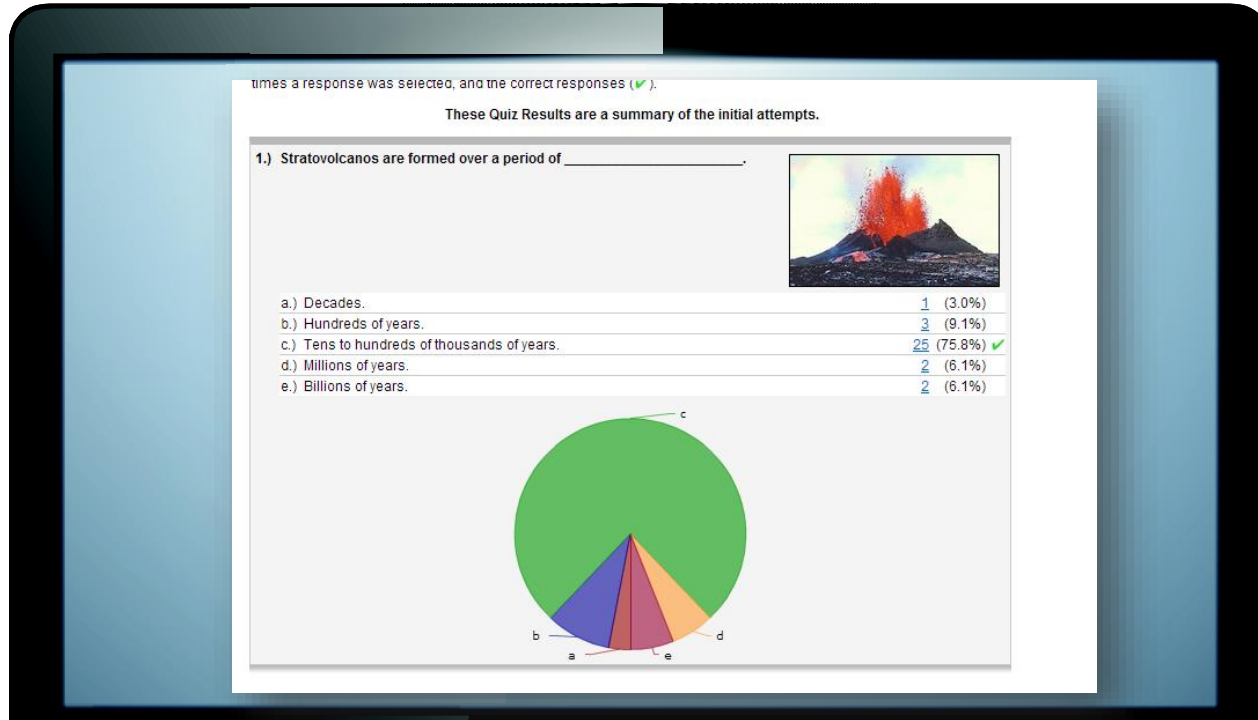

Date	Time	Class	Location	SEATS AVAILABLE
Tuesday Mar 25, 2014	10:00 AM	Check Requests	Conference Room 3	SEATS AVAILABLE
Wednesday Mar 26, 2014	10:00 AM	Connect-Wise Introduction	Education and Training Center	SEATS AVAILABLE
Thursday Mar 27, 2014	10:00 AM	Check Requests	Conference Room 3	SEATS AVAILABLE
Thursday Mar 27, 2014	10:00 AM	MHA Training for Homeowners	INT Training Room	SEATS AVAILABLE
Friday Mar 28, 2014	10:00 AM	Family and Medical Leave Act	GC Cincinnati Training Center	SEATS AVAILABLE
Monday Mar 31, 2014	10:00 AM	MHA Training for Homeowners	INT Training Room	SEATS AVAILABLE

At the bottom left, there is a link for "Click Here for Assistance". At the bottom right, it says "powered by TrainCaster v.5.20a".

Tracking & reporting.

With all of your training data located in a single database, you can track results, compliance status and training details with a single click.

- Report on all training data: web-based, classroom and third party.
- Create customized reports and save criteria for future use.
- Summary and detail level reporting with drill down options.
- Statistical reports to help you improve training content.
- See survey responses via report with charts.
- Download reports in TSV format for use in other applications.
- Email reports.

Easy user management.

You can choose to delegate user management responsibilities across departments in your organization. Users can be granted system access based on their job responsibilities. User types include trainee, report manager, user manager, course manager and administrator.

The screenshot shows the TrainCaster LMS interface for modifying a user. The page title is 'TrainCaster LMS Learning management. Simplified.' The navigation menu includes 'Administration', 'Course Manager', 'User Manager', 'Reports', 'My TrainCaster', 'Help', and 'Logout'. The breadcrumb trail is 'User Manager > Manage Users > Modify User'. The form is titled 'Modify User' and is for user 'RYAN BANASEK'. It has three tabs: 'MODIFY USER', 'TRAINING COMPLETION RECORDS', and 'TRAINING IN PROGRESS RECORDS'. The 'MODIFY USER' tab is active. A note states 'Fields in bold are required.' The form is divided into three sections: 'Personal Information', 'Login Information', and 'Account Information'. The 'Personal Information' section includes fields for First Name (RYAN), Middle Name, Last Name (BANASEK), E-mail Address (ryan.banasek@ableengineering.com), Department (Associates), Location (Phoenix, AZ), Job Title, and Time Zone (GMT-07:00) America/Phoenix. The 'Login Information' section includes fields for User Name (rbanasek), Password, and Verify Password, with a note 'Leave blank to keep the current password.' The 'Account Information' section includes a 'User Type' field with radio buttons for Administrator (selected) and Manager. The Administrator option is described as 'Allow user to have complete access to all system functions'.

- Manage user accounts and assignments.
- Add training records from third party training.
- Automatically synchronize user information with your HR information via a customized nightly process.
- Store user specific information, such as training evaluations, job performance reviews, or third party test results in your database.
